Business Information Systems

Modern Academy

📅 2023 - current

📍 Cairo, Maadi

SKILLS

- HTML5
- CSS
- JavaScript
- Bootstrap
- Angular
- GitHub&Git

CAREER OBJECTIVE

Proactive front-end developer proficient in HTML5 and Angular, I aim to apply my strong basics in front-end technologies and various languages to expedite the delivery of responsive and efficient applications for every client.

WORK EXPERIENCE

front end the freelance.

📅 2022- current

📍 Cairo , Maadi

- Developed responsive and user-friendly web applications using HTML5, CSS3, Bootstrap, JavaScript,
- Built reusable and maintainable UI components while following clean code and responsive design best practices.
- Converted UI/UX designs into fully functional, cross-browser compatible web pages with a focus on performance and accessibility.
- Collaborated with clients to understand requirements, deliver projects on time, and implement feedback to improve user experience.
- Optimized website performance, fixed UI issues, and ensured compatibility across different devices and browsers.

PROJECTS

Library Assistant

📅 2023 - 2024

- Incorporated HTML5 form validation for the library's online registration system, **lowering form submission errors by 42%**.
- Developed a angular-based notification system for overdue books, decreasing overdue cases by 11%.
- Managed content updates on the library's website, ensuring timely and accurate information dissemination.
- Worked with a cross-functional team to create an online study room reservation system, shrinking reservation conflicts by 26%.

Dental Clinic Website

📅 2026

- Developed a responsive Dental Clinic Website using HTML5, CSS3, and JavaScript.
- Designed a modern, user-friendly interface with multiple pages for services, doctors, and appointments.
- Implemented an online appointment booking form with client-side validation.
- Built responsive layouts using CSS Flexbox and CSS Grid, ensuring compatibility across all devices.
